

Gerard P. Aurigemma, MD, FASE, FAHA, FACC, is Professor of Medicine and Radiology at the University of Massachusetts Medical School in Worcester. Dr. Aurigemma also is Director of Noninvasive Cardiology at University of Massachusetts Memorial Health Care. He is Former Director of the University of Massachusetts Medical School Cardiology Fellowship program. Dr. Aurigemma has been a member of the University of Massachusetts Medical School faculty since 1987. He has a longstanding interest in left ventricular systolic and diastolic function in hypertension, valvular heart disease, and diastolic heart failure as well as the application of noninvasive imaging techniques for these disorders. He also has become interested in reversible left ventricular dysfunction, including the intriguing syndrome of stress cardiomyopathy.

Dr. Aurigemma earned his AB in biochemistry cum laude at Harvard College, and he earned his MD at Harvard Medical School. He completed his residency at the University of California at San Francisco, where he was designated Chief Resident. He completed his fellowship in cardiology at the University of Pennsylvania.

Dr. Aurigemma is the author of more than 100 articles and reviews on left ventricular function and other topics in his field. His articles and abstracts are published in prestigious, peer-reviewed journals, including *Circulation*, *Journal of the American Society of Echocardiography*, and *Journal of the American College of Cardiology*, to name a few. An associate editor of the textbook, Cardiology, Dr. Aurigemma serves on editorial boards for several cardiology journals. He has been a member of the American Society of Echocardiography Board of Directors. Dr. Aurigemma has been a course director for the American Society of Echocardiography Board Review Course. He is the recipient of many honors and awards, including the 2012 American Society of Echocardiography Richard Popp Excellence in Teaching Award.
